**STEVEN J. GOLD, PROFESSOR AND ASSOCIATE CHAIR**

March 3, 2005

To whom it may concern,

I am writing this letter in support of Andrew McCormack. Andrew has worked as a computer support person for the MSU Department of Sociology for the last two years. I have found his work to be first rate.

He is easy to get along with, very smart and highly skilled. He is also readily available. Anytime I have faced problems with my computer, he has been able to solve them very rapidly. Moreover, Andrew is very well-versed on available technology. Accordingly, he is able to recommend high quality and economical equipment and software whenever we have needed it.

I have always been satisfied with Andrew's fine work and he is clearly the best computer tech the Sociology Department has employed in the eleven years that I have been here. I give him my enthusiastic endorsement.

Yours Sincerely,

Steven J. Gold
